

TROUBLESHOOTING

TROUBLESHOOTING

- If your heater fails to operate:
 - Make sure the electrical outlet or circuit breaker is working.
 - Check for obstructions. If you find an obstruction turn the heater OFF, and unplug the unit. Carefully remove the obstruction and follow the reset instructions.
 - Make sure the button on the ALCI plug is in the RESET position.
 - The temperature may be set too low. Turn the Thermostat Control to a higher temperature level until the heater restarts.
 - Make sure to follow the Operating Instructions to turn on the heater and set the digital thermostat to your precise comfort level.
 - Timer has elapsed. Start Time mode will automatically turn OFF after 30 minutes.
 - Press the power button so that power light ring illuminates.
 - Once the clock is set, only the power ring signifies that the heater buttons (other than the power button) can be used.

Please DO NOT attempt to open or repair the heater. Please see the **Warranty for Service Instructions**.

WARRANTY INFORMATION

3 YEAR LIMITED WARRANTY

Sunbeam Products, Inc. doing business as Jarden Consumer Solutions or in Canada, Sunbeam Corporation (Canada) Limited doing business as Jarden Consumer Solutions (collectively "JCS") warrants that for a period of three years from the date of purchase, this product will be free from defects in material and workmanship. JCS, at its option, will repair or replace this product or any component of the product found to be defective during the warranty period. Replacement will be made with a new or remanufactured product or component. If the product is no longer available, replacement may be made with a similar product of equal or greater value. This is your exclusive warranty. Do NOT attempt to repair or adjust any electrical or mechanical functions on this product. Doing so will void this warranty. This warranty is valid for the original retail purchaser from the date of initial retail purchase and is not transferable. Keep the original sales receipt. Proof of purchase is required to obtain warranty performance. JCS dealers, service centers, or retail stores selling JCS products do not have the right to alter, modify or any way change the terms and conditions of this warranty. This warranty does not cover normal wear of parts or damage resulting from any of the following: negligent use or misuse of the product, use on improper voltage or current, use contrary to the operating instructions, disassembly, repair or alteration by anyone other than JCS or an authorized JCS service center. Further, the warranty does not cover: Acts of God, such as fire, flood, hurricanes and tornadoes.

This warranty does not cover normal wear of parts or damage resulting from any of the following: negligent use or misuse of the product, use on improper voltage or current, use contrary to the operating instructions, disassembly, repair or alteration by anyone other than JCS or an authorized JCS service center. Further, the warranty does not cover: Acts of God, such as fire, flood, hurricanes and tornadoes.

What are the limits on JCS's Liability?

JCS shall not be liable for any incidental or consequential damages caused by the breach of any express, implied or statutory warranty or condition.

Except to the extent prohibited by applicable law, any implied warranty or condition of merchantability or fitness for a particular purpose is limited in duration to the duration of the above warranty.

JCS disclaims all other warranties, conditions or representations, express, implied, statutory or otherwise.

JCS shall not be liable for any damages of any kind resulting from the purchase, use or misuse of, or inability to use the product including incidental, special, consequential or similar damages or loss of profits, or for any breach of contract, fundamental or otherwise, or for any claim brought against purchaser by any other party.

Some provinces, states or jurisdictions do not allow the exclusion or limitation of incidental or consequential damages or limitations on how long an implied warranty lasts, so the above limitations or exclusion may not apply to you. This warranty gives you specific legal rights, and you may also have other rights that vary from province to province, state to state or jurisdiction to jurisdiction.

Holmes® Heater Holmes® Calefactor

PLEASE READ AND SAVE THESE IMPORTANT INSTRUCTIONS LEA Y CONSERVE ESTAS IMPORTANTES INSTRUCCIONES

DIAGNOSTICO DE PROBLEMAS

DIAGNÓSTICO DE PROBLEMAS

Si su calefactor no funciona:

- Asegúrese de que el tomacorriente o la llave térmica funcione correctamente.
- Verifique que no haya ninguna obstrucción. Si encuentra una obstrucción, apague el calefactor, y DESENCHUFÉLO. Quite cuidadosamente la obstrucción y siga el procedimiento para volver a funcionar la unidad.
- Verifique que el interruptor en el enchufe ALCI esté en la posición RESET (reiniciar).
- La temperatura establecida puede resultar demasiado baja. Coloque el Control de modo en un nivel de temperatura más alto hasta que el calefactor se reinicie.
- Asegúrese de seguir las INSTRUCCIONES DE FUNCIONAMIENTO para encender el calefactor y configurar el termostato digital a su nivel de comodidad.
- Ha transcurrido el intervalo del temporizador. El modo Hora de inicio se apagará automáticamente después de los 30 minutos.
- Pulse el botón de Encendido para que se ilumine el círculo luminoso de encendido.
- Una vez que se establece la hora, el círculo de encendido es el único que indica que pueden utilizarse los botones del calefactor (distintos al botón de Encendido).

NO INTENTE ABRIR ni reparar el calefactor. Refiérase a las instrucciones de servicio en la garantía.

INFORMACION DE LA GARANTIA

GARANTIA LIMITADA DE 3 AÑOS

Sunbeam Products, Inc. operando bajo el nombre de Jarden Consumer Solutions, o en Canadá, Sunbeam Corporation (Canada) Limited operando bajo el nombre de Jarden Consumer Solutions, (en forma conjunta, "JCS"), garantiza que por un período de tres años a partir de la fecha de compra, este producto estará libre de defectos de materiales y mano de obra. JCS, a su elección, reparará o reemplazará este producto o cualquier componente del mismo que presente defectos durante el período de garantía. El reemplazo se realizará por un producto o componente nuevo o reparado. Si el producto ya no estuviera disponible, se lo reemplazará por un producto similar de valor igual o superior. Esta es su garantía exclusiva. No intente reparar o ajustar ninguna función eléctrica o mecánica de este producto. Al hacerlo eliminará esta garantía.

La garantía es válida para el comprador minorista original a partir de la fecha de compra inicial y la misma no es transferible. Consérve el recibo de compra original. Para solicitar servicio en garantía se requiere presentar un recibo de compra. Los agentes y centros de servicio de JCS o las tiendas minoristas que venden productos de JCS no tienen derecho a alterar, modificar ni cambiar de ningún otro modo los términos y las condiciones de esta garantía.

Esta garantía no cubre el desgaste normal de las piezas ni los daños que se produzcan como resultado de uso negligente o mal uso del producto, uso de voltaje incorrecto o corriente inapropiada, uso contrario a las instrucciones operativas, y desarme, reparación o alteración por parte de un tercero ajeno a JCS o a un Centro de Servicio autorizado por JCS.

Asimismo, la garantía no cubre actos fortuitos tales como incendios, inundaciones, huracanes y tornados.

¿Cuál es el límite de responsabilidad de JCS?

JCS no será responsable de daños incidentales o emergentes causados por el incumplimiento de alguna garantía o condición expresa, implícita o legal. Excepto en la medida en que lo prohíba la ley aplicable, cualquier garantía o condición implícita de comerciabilidad o aptitud para un fin determinado se limita, en cuanto a su duración, al plazo de la garantía antes mencionado.

JCS queda exenta de toda otra garantía, condiciones o manifestaciones, expresa, implícita, legal o de cualquier otra naturaleza.

JCS no será responsable de ningún tipo de daño que resulte de la compra, uso o mal uso del producto, o por la imposibilidad de usar el producto, incluidos los daños incidentales, especiales, emergentes o similares, o la pérdida de ganancias, ni de ningún incumplimiento contractual, sea de una obligación esencial o de otra naturaleza, ni de ningún reclamo iniciado contra el comprador por un tercero.

Algunas provincias, estados o jurisdicciones no permiten la exclusión o limitación de los daños incidentales o emergentes ni las limitaciones a la duración de las garantías implícitas, de modo que es posible que la exclusión o las limitaciones antes mencionadas no se apliquen en su caso.

Esta garantía le otorga derechos legales específicos y es posible que usted tenga otros derechos que varíen de un estado, provincia o jurisdicción a otro.

PLEASE READ AND SAVE THESE IMPORTANT SAFETY INSTRUCTIONS

When using electrical appliances, basic safety precautions should always be followed to reduce the risk of fire, electric shock, and injury to persons, including the following:

1. Read all instructions before using this heater.
2. This heater is hot when in use. To avoid burns, do not let bare skin touch hot surfaces, use handles when moving this heater. Keep combustible materials, such as furniture, pillows, bedding, papers, clothes, and curtains at least 3 feet (0.9 m) from the front of the heater and keep them away from the sides and rear.
3. Extreme caution is necessary when any heater is used by or near children or invalids and whenever the heater is left operating and unattended.
4. Do not operate any heater with a damaged cord or plug or after the heater malfunctions, has been dropped or damaged in any manner. Discard heater, or return to authorized service facility for examination and/or repair.
5. Do not use outdoors.
6. Do not run cord under carpeting. Do not cover cord with throw rugs, runners, or similar coverings. Do not route cord under furniture or appliances. Arrange cord away from traffic area and where it will not be tripped over.
7. To disconnect heater, turn controls to off, then remove plug from outlet.
8. Do not insert or allow foreign objects to enter any ventilation or exhaust opening as this may cause an electric shock or fire, or damage the heater.
9. To prevent a possible fire, do not block air intakes or exhaust in any manner. Do not use on soft surfaces, like a bed, where openings may become blocked.
10. A heater has hot and arcing or sparking parts inside. Do not use it in areas where gasoline, paint, or flammable liquids are used or stored.

SAVE THESE INSTRUCTIONS

ALCI (Appliance Leakage Current Interrupter) SAFETY DEVICE: This device provides protection against electric shock due to ground fault currents by automatically shutting off the power. To test the operation of the ALCI Safety Device, switch the heater ON. Press the TEST button on the ALCI device attached to the plug end of the line cord. The heater and fan should stop operating and the Power light should be extinguished. Press the RESET button on the ALCI device to resume normal operation of the heater. This device should not be used on ON/OFF operation switch.

CAUTION: ALTHOUGH THIS DEVICE IS PROVIDED WITH PROTECTION WHICH REDUCES THE RISK OF ELECTRIC SHOCK, THIS PRODUCT SHOULD NEVER BE USED NEAR WATER.

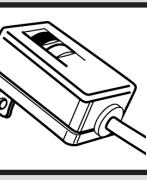

LEA Y CONSERVE ESTAS IMPORTANTES INSTRUCCIONES DE SEGURIDAD

Para reducir el riesgo de incendios, descargas eléctricas y lesiones personales al utilizar electrodomésticos, siga siempre las precauciones básicas de seguridad, incluyendo las que se mencionan a continuación:

1. Lea todas las instrucciones antes de usar este calefactor.
2. El calefactor se calienta al usarlo. Para evitar quemaduras, NO toque las superficies calientes con la piel. Si existen, utilice las manijas para mover la unidad. Mantenga los materiales combustibles, como muebles, almohadones, sábanas, papeles, ropa y cortinas a por lo menos 3 pies (0.9m) de la parte delantera del calefactor y manténgalos alejados de los costados y de la parte de atrás.
3. Debe tener mucha cuidado cuando el calefactor es utilizado por, o cerca de niños o invalidos, y siempre que se deje el calefactor prendido y desatendido.
4. NO utilice el calefactor si el cable o el enchufe están dañados o luego de una falla, se haya caído o haya sufrido cualquier tipo de daño. Deseche el calefactor o devuélvalo al centro de servicio autorizado para su revisión y/o reparación.
5. NO utilice en el exterior.
6. No coloque el cable debajo de la alfombra. No cubra el cable con alfombras, tapetes o artículos similares. No pase el cable por debajo de muebles o electrodomésticos. Coloque el cable lejos del área de tráfico y donde no se tropiece con él.
7. Para desconectarlo, gire el control a la posición OFF, luego quite el enchufe del tomacorriente.
8. No inserte ni permita que objetos extraños penetren en la ventilación o salida de aire ya que esto puede causar un choque eléctrico o incendio, o dañar el calefactor.
9. Para evitar un posible incendio, no bloquee las entradas de aire o escape de ninguna manera. No lo use en

DISPOSITIVO DE SEGURIDAD ALCI (Interruptor de corriente de pérdida para electrodomésticos): Este dispositivo proporciona protección contra descargas eléctricas causadas por corrientes de fallo a tierra desconectando automáticamente la alimentación. Para verificar el funcionamiento del dispositivo ALCI de Seguridad, encienda el calefactor. Presione el botón de TEST del dispositivo ALCI en el extremo del cable de alimentación donde está el enchufe. El calefactor y el ventilador deben apagarse, junto con la luz de encendido. Presione el botón RESET del dispositivo ALCI para volver a usar normalmente el calefactor. Este dispositivo no se debe usar como llave de encendido.

CUIDADO: A PESAR DE ESTE DISPOSITIVO ESTÁ EQUIPADO CON UNA PROTECCIÓN QUE REDUCE EL RIESGO DE DESCARGAS ELÉCTRICAS, ESTE PRODUCTO NUNCA DEBE USARSE CERCA DEL AGUA.

- Working voltage: 120V AC/60Hz

WALL MOUNT INSTALLATION INSTRUCTIONS

Your heater comes fully assembled and ready for immediate use. The heater also comes with a Wall Mount Bracket which allows you to mount the heater on wall (Not over the tub/shower).

Wall Mount Installation:

1. Carefully remove your heater and the Wall Mount Bracket from the box.
2. Secure the mounting bracket to the wall as shown. (See Figure 1)

3. Turn heater sideways and position the mounting tab on the back of the heater so it lines up with the mounting bracket.
4. Place mounting tab into the mounting bracket and rotate heater into the upright position to lock it in place.
5. To reduce the risk of electric shock, do not immerse, remove, modify or replace this plug and do not place your heater where it may easily fall into water.

Please Note: Due to the multitude of potential mounting surfaces, mounting screws are not included with this product. Please visit your local hardware store to determine which type of screw is best for your particular wall.

NOTE: It is normal for the heater to cycle on and off as to maintain the preset temperature. To prevent the heater from cycling, you need to raise the thermostat setting.

OPERATING INSTRUCTIONS

1. Place heater on firm level surface.
2. Avoid overloading your circuit by not using other high wattage appliances in the same outlet.

Your heater is equipped with a digital thermostat that allows you to set your heater to your precise comfort level:

④ Power On/Off

NOTE: Once the time is set, the power ring is the only indicator that the unit is off and that the mode button will not function.

Press the Power Button to turn on the heater. LCD Display and Power Light Ring will illuminate. The LCD Display will show the current clock time and the Thermostat icon (④).

Mode Settings

Press the Mode Button to select your desired settings, the LCD Display will cycle through to show the below settings in sequence:

1. **Thermostat:** The Thermostat icon (④) and the current clock time will appear on the LCD Display. Turn the Thermostat Control to adjust the temperature level ranging from 85°F to 65°F. When the preset temperature is reached, the heater will shut off until the room temperature drops below the preset temperature, the heater will be switched on again to maintain the room at the preset temperature level.
2. **Fan Only Setting:** The Fan icon (④) and the current clock time will appear on the LCD Display. The heater will run continuously without heat output.
3. **Stay On** **Setting:** "Stay On" and the current clock time will appear on the LCD Display. The heater will run continuously at 1500W. To shut off the heater, you must press the Power Button (④) to turn the Power Light Ring off.

NOTE: It is normal for the heater to cycle on and off as to maintain the preset temperature. To prevent the heater from cycling, you need to raise the thermostat setting.

Please Note: Due to the multitude of potential mounting surfaces, mounting screws are not included with this product. Please visit your local hardware store to determine which type of screw is best for your particular wall.

NOTE: It is normal for the heater to cycle on and off as to maintain the preset temperature. To prevent the heater from cycling, you need to raise the thermostat setting.

FEATURES - OPERATIONS

NOTE: When the preset temperature is reached or when the heater is shut off, the fan will run for 10 seconds without heat. This cool down process ensures an accurate and consistent temperature reading.

NOTE: To shut the heater off at any time, press the Power (④) Button. The digital thermostat has memory, it will remember the last temperature setting before the heater is turned off. However, if the heater is unplugged, the digital thermostat will no longer remember the previous temperature setting, you have to reset the digital thermostat following the above instructions.

④ Clock - Set current Time

1. To program the heater to turn ON at a preset time, you must set the current time first, press and hold the Clock Button (④) for 3 seconds.
2. The hour digits on LCD Display will blink. Turn the Thermostat Control to adjust from 12 to 1, and switching between AM and PM.

NOTE: Timer can be set in any mode but will not engage if the unit is in an active mode (fan, stay on, therm).

3. To preset time, press and hold the Start Time Button (④) for 3 seconds.
4. The hour digits on LCD Display will blink. Turn the Thermostat Control to adjust from 00 to 59.

NOTE: Press the Start Time (④) Button again to set the preset time.

5. Press and hold the Start Time Button (④) to activate the Timer feature. The icon (④) and the current clock time will appear on the LCD Display to confirm the Timer feature being activated.

NOTE: To turn off the Timer feature, press and hold the Start Time Button (④) again until the icon (④) goes off.

NOTE: Modes cannot be changed without powering down the unit once the timer has been engaged.

NOTE: The timer has memory to store the preset time, but you must re-activate the Start Time feature again to program the heater repeatedly at your preset time. For example, if you want your heater to pre-heat the room at a preset time every morning, you must press and activate the Start Time button every night before you go to sleep.

6. Press and hold the Start Time Button (④) to activate the Timer feature. The icon (④) and the current clock time will appear on the LCD Display to confirm the Timer feature being activated.
7. To turn off the Timer feature, press and hold the Start Time Button (④) again until the icon (④) goes off.

NOTE: Modes cannot be changed without powering down the unit once the timer has been engaged.

NOTE: The timer has memory to store the preset time, but you must re-activate the Start Time feature again to program the heater repeatedly at your preset time. For example, if you want your heater to pre-heat the room at a preset time every morning, you must press and activate the Start Time button every night before you go to sleep.

NOTE: It is normal for the heater to cycle on and off as to maintain the preset temperature. To prevent the heater from cycling, you need to raise the thermostat setting.
